Dear Rotarians,

Dear friends,

The Almanac you are opening is a result of my offer to each of the Rotary clubs in District 2482 Bulgaria to share on one page some facts of its history, to tell about the projects it is proud of, to present its programs and partners. What we finally got was a colorful picture, a series of fascinating stories because every club is unique community of successful people of different professions and experience. They are united by their shared values of fellowship, by their willingness to prove themselves as leaders desiring to apply their various experiences and perspectives in order to solve sustainably problems in their communities and all over the world. These are efforts and work that only pay off, yet

generously, by shared friendships and human interaction, by the chance to change human lives, to leave good deeds as our heritage and thus grow as persons.

This year, we shall celebrate 25 years of the restoring of Rotary in Bulgaria. Interesting and controversial history is behind us, evidence of turns and changes in Bulgarian society from the 30s of the 20th century till today.

Even back in 1915 we have Bulgarian Rotarian – he is Sabo Nikolov from Panagyurishte.

On 22 April 1933, in Sofia, the first Rotary club in the country was chartered. Memorial for the Rotarians are the names of the very first founders: Dr. Nikolaev, Dr. Todor Nedkov, eng. Tsvyatko Kadiyski, Petko Boyadzhiev, Boleslav Taucher, and Veliko Hristov. Only two years later, the Rotary club already unites prominent figures of Sofia society then.

The club has exceptional merits for breakthroughs of the isolation, which is imposed to Bulgaria after the unfortunate end of the wars, and all this without compromising Rotary tolerance, consistently defending national interests, and reminds injustices of the Treaty of Neuilly. Some of the first in Europe mixed Rotary committees are established together with the clubs of Yugoslavia, Romania, and Greece.

Rotary extends outside Sofia as well. As of 1940, there are clubs in Varna, Bourgas, Rousse, Pleven, Gorna Oryahovitsa, Veliko Tarnovo, and Plovdiv. By resolution of Rotary International in 1939, the separate District Bulgaria is established with the first governor prof. Lyuben Bojkov. Faithful to the principles and values of Rotary, the club members oppose the racial theories of the Nazis. At the conference of Rotary in Cleveland in 1940, the Bulgarian Rotarians vote in favor of the resolution to support the innocent victims of war.

A star moment of the Rotarians in the fight against racial and national hatred is when the three members of Parliament Rotarians signed the Declaration of Dimitar Peshev, which initiated a rescue of Bulgarian Jews.

The development of Rotary in Bulgaria was interrupted twice. The first time is prohibited by the Law for protection of the nation in 1941, and the second – by the authorities in power in 1951, as the reasons for the ban are diametrically opposed - the first time as an anti-fascist, and the second as a pro-fascist organization.

Along with the social changes in the country in 1989, the Rotary idea returned. Kalcho Hinov, Simeon Kondov, Stefan Stoyanov, Tsvyatko Kadiyski-son, and Dimitar Stefanov in Sofia, Atanas Chaushev, Stoyan Chervenkov, Petar Neychev, Nasko nachev and Lambrin Atanasov in Plovdiv, were among the first to establish initiative groups and with the help of our Greek fellows, they opened a new page in Rotary history.

By mid-2007, Bulgaria was in the same Rotary district together with Northern Greece, Serbia and Montenegro, and FYROM. By this multinational district, Rotary proved to the world once again that it is ahead of politicians and can unite people from the business sector, experts professionals, intellectuals and leaders in an organization that set as its highest goal to serve society.

We are proud that our first district governor in our most recent history – Kalcho Hinov – announced the motto of his activities in the multinational district „Peace and Understanding in the Balkans“. By our actions, we proved that we can be ahead of all political powers and can work for making Bulgaria guarantee of peace in Eastern Europe. We are proud that the Bulgarian composer Stefan Dragostinov wrote „Peace Symphony“, by which the eightieth anniversary of Rotary International in Maracaibo, Venezuela, was celebrated.

On 1 July 2007, Bulgaria became separate District 2482 and now we are worthy part of the global Rotary community.

During all this time, we held two Presidential conferences: „The Contribution of Rotary to the Peace in the Balkans“ and „Children of Bulgaria and Rotary“. In December 2010, in Sofia, the Zone Rotary Institute was held. During these years, we were visited by the Presidents of Rotary International Wilfred Wilkinson, D.K.Lee, John Kenny, the RI President 2011-12 Kalyan Banerjee, for 2014-15 Gary Huang and many Rotary leaders from all over the world.

Since 1995, Rotary magazine is issued in Bulgaria and it is successor of the bulletin „Rotary in Bulgaria“ that was issued only in 1940. It is recognized by Rotary International as regional for the Slavic countries of the Balkan Peninsula. We are proud that the Bulgarian Rotarians have their own anthem „The world was created by goodness“, that they sing with great pleasure during their weekly meetings.

Now, in Bulgaria there are 85 Rotary clubs with over 2.000 Rotarians in almost every big town. Every year, hundreds of worthy projects are realized through events for fundraising with the aim to support better education and literacy, protection of child and maternal health, prevention of major diseases, sustainable socio-economic development of our communities.

PET seminar

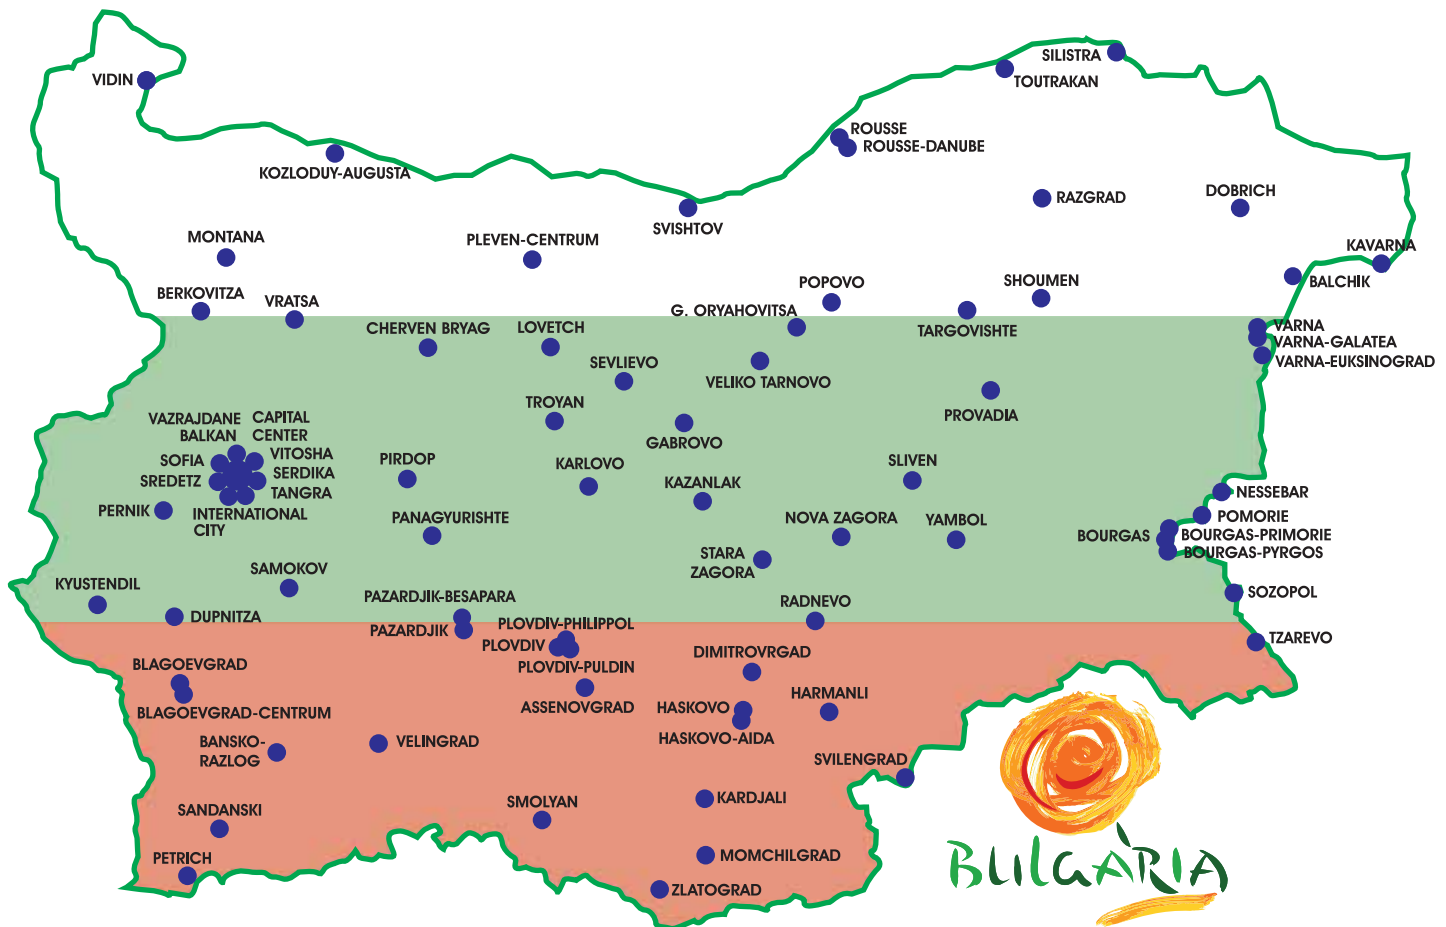

Since the beginning of the restoration of the Rotary movement by now, the Bulgarian Rotarians have implemented projects and programs for the benefit of their communities valued at over a million and a half dollars. This became possible with the participation in and support to the Rotary Foundation.

The Bulgarian Rotarians are among consistent donors of the Rotary Foundation. Recognition for this is the fact that currently there are over 800 Paul Harris fellows; over 20 members of the Paul Harris Society, eight Rotarians are honored with the „Major Donor“ award. The Rotary club of Vidin is honored with the special award „100% Paul Harris Fellow“.

With our donations to the Rotary Foundation we play our part in eradicating polio worldwide, the mission of Rotary, the achievement of which is very close.

Our pride is youth programs sponsored by the Rotary Clubs. United in 41 Rotaract clubs and 45 Interact clubs, young people grow up under the friendly guidelines and assistance of the Rotarians as people with values, mindful of the needs of other people and their communities. We believe that thus, Rotary in Bulgaria works for Bulgaria's future and for a better world of responsible leaders. For the twenty-five years since Rotary returned to Bulgaria, we became one of the fastest growing Rotary communities. This is so because the values of Rotary are typical of our spirituality as Bulgarians because entrepreneurial-minded people, people who want a better future for Bulgaria, found in our clubs friendly environment for communication and interaction for professional and personal growth, for own contribution in solving important to their communities needs and problems.

District 2482 Bulgaria

Rotary around the world gives example of a better organization of society, for the possibility good people, competent and concerned professionals, intellectuals, entrepreneurs to come together, guided by values. We spend time and money; we mobilize our professional expertise to permanently change human lives for the better.

This is how ROTARY IS SERVING HUMANITY.

Thus, we leave good deeds as our heritage, grow as people and become GIFT TO THE WORLD. I believe that the picture of the Bulgarian Rotary revealed in this almanac is impressive and motivating for everyone who unfurls its pages. I hope it will contribute for new partnerships, new ideas and multiplying the best thing we do together.

I thank greatly to Spas Popov of RC Plovdiv Puldin for the work on its creation. I want also to express special thanks to PDG Nasko Nachev for his editorial interference and to our friend Tsvyatko Kadiyski, to whom the history of Rotary in Bulgaria has become a mission.

About the Club

The Rotary club of Asenovgrad was chartered at the time when Bulgaria was part of the Balkan international District 2480. Asenovgrad is situated at the foot of the Rhodope Mountains and is known for its more than 1,000 monasteries and chapels - in and around the town.

The Club meets in one of the most picturesque venues of spiritual community in the area – "Sv. Sv. Kirik and Yulita" monastery. This is one of the reasons the Greek district governor 1999-2000 to choose "Sv. Kirik" for the organization of the PETS hosted by the members of the Asenovgrad club. Thus, they had the opportunity at the very beginning to meet many Rotary leaders from Bulgaria and neighboring countries. The first Paul Harris Fellows in Bulgaria were announced at the seminar. Now, the club has 15 members and needs to attract young people and women as well.

Major Projects

International PETS

The meeting of current and incoming club leaderships with representatives of the district is connected to discussions on the new tasks and theme of the year as well as with the most important in Rotary practice – continuity.

Host clubs of the seminar were RC Asenovgrad and the sponsor club RC Plovdiv. The conditions of the architecture complex of "Sveti Kirik", the hospitality of its manager the Rotarian Nedyalko Peev and the excellently prepared materials for the seminar were the foundation of fruitful and interesting work.

Group Study Exchange

A team of business ladies in the field of wine production from Canada and USA, D-7090, under the Group Study Exchange program visited RC Asenovgrad as well.

Special time was devoted to visiting old vineyards of grapes and Mavrud wine typical of this region. The exchange was successful because the team enjoyed the ancient history, high agrarian culture and hospitality of the citizens of Asenovgrad.

Friendship relations with RCs of Romania (Mangalia), Turkey (Ataşehir – Istanbul), and Israel (Karmiel) verify club's willingness to strengthen international relations, good will and peace in this small and beautiful town of Balchik. Project implementation directed to youth in the community enables promoting us as a humanitarian organization and achieves empathy in adolescents to the ideas of Rotary. The club actively seeks to maintain and increase membership among young people.

Major Projects

"No to Drugs"

Athletics cross is the final stage of the project which the club implements each year. It comes after a series of lectures and discussions, film and printed materials about different problems related to the "scourge" of modern society. Once a year, the White City whitens by the hundreds of young participants dressed in traditional white shirts with the inscription "No to Drugs". This project is a small part of the work of the Rotary club done for the young people in the town.

For Clean Drinking Water at School

The project includes the installation of 4 drinking water purifying systems at 4 schools on the territory of the Municipality of Balchik. The aim of the project is to avoid the consumption of "hard" and polluted water in the water supply network. More than 1200 children every day drink the purified water freely and at easy to access places.

The last two years were marked by amplified charitable activities of the Rotary Club of Dobrich.

The most significant was the fundraising campaign after the disaster that befell our town in July 2014. All the funds were directed to prevent damage from flooding. They were invested in beds, mattresses, cupboards, curtains and other supplies for two kindergartens.

For several years, our charitable mission is aimed at teenagers. We believe that investment in the education of the younger generation is an investment in the future.

The introduction of modern interactive teaching methods increases the interest of students to classes and active participation in the learning process itself. Such practices are not new in other European countries. Our other commitments are organizing a competition for young artists "Hristo Gospodinov," granting scholarship for a "Young doctor". Every year at Christmas we present food packages to people with disabilities. If you walk into the Old Dobrich Complex at noon, you will hear the bells of the clock tower at precisely twelve o'clock. Maintenance of the clock is work of the club.

Major Projects

Investment in the Future

For several years now, our charity mission is focused on the education of adolescents. At the beginning we equipped interactive classroom at the Regional Library "Dora Gabe." Then, we donated interactive boards to a few schools – "Hristo Botev", "Dimitar Talev", "Panayot Volov", and the School of Mathematics. This year, purchase of interactive boards for five more schools will happen.

Friendship as a Helping Hand

Especially indicative is the donation campaign organized after the natural disaster that hit our town in July 2014. All the funds were directed to prevent the damages from the flooding. The amount of BGN 30.000 was invested in beds, mattresses, cupboards, curtains for two kindergartens. Part of the funds came from both the Rotary clubs from Bulgaria and from the District.

The Rotary club in Pleven was established in 1937. RC Pleven ceases its activities (documented by RI - on April 7, 1941). Together with the other clubs from District 86 "Bulgaria" they had been under the prohibition of the "Law on Protection of the Nation" from December 1940. The Rotary club of Pleven resumed in early 1993. RC Pleven-Centrum is their first and direct assignee in 2012. Rotary International restores the date of the chartering of the first club as of May 14, 1937.

The club has worked over the years on service projects for child and maternal health, helping disadvantaged people and on other humanitarian activities. In cooperation with the Municipality, the town singing clock has been restored and one can listen now to some tracks of our compatriot, the famous pop singer Emil Dimitrov.

Our club contributes to the preservation of some cultural heritage in Pleven, as one example of this is the restoration of the external frescoes of "St. Nicholas" church in cooperation with friends from the city of Kaiserslautern, Germany.

There are five annual awards in the field of education, culture, management, and others that are awarded on our traditional Christmas balls of the club to individuals and organizations from Pleven for their noble and humane work. The club members are united by the Rotary principle "to serve the community."

About the Club

RC Plovdiv is the successor of the club, founded on May 20, 1939. It had only a three years period of work, after which all Rotary clubs in Bulgaria were prohibited. After the democratic changes in 1990, an Initiative Group of Plovdiv began operations to restore Rotary in the town, led by Atanas Chaoushev and supported by Rotarians from Greece, France and Venezuela. So Plovdiv was the town, which created the second Rotary Club in Bulgaria.

Over the years, the Rotary club has been sponsoring and assisting the establishment of clubs in the towns of Pazardjik, Gabrovo, Smolyan, Asenovgrad, and two new clubs in Plovdiv. Immediately after the chartering our club founded the first youth Rotaract formation. The first Bulgarian donors and winners of the award "Paul Harris Fellow" – the Rotarians Peter Neychev and Konstantin Madjarov - were in 1999 and from our Rotary club. In 2007, the club nominated Nasko Nachev chosen by the multinational D-2480 to be the first district governor of the autonomous Bulgarian D-2482. Member of RC Plovdiv was the first district secretary Angel Angelov. The club is twinned with Rotary clubs: Kemberburgas Istanbul, Goksu-Istanbul, Istanbul-Beyoglu, Kavaklidere, and Ankara.

Now the park extends over 46 acres, with a fountain in it, which bears the sign of RI; many playgrounds, paths and facilities. The park gradually became the most desirable place for the residents of the newest neighborhood of the town.

Mr. Wilbert, president of the Chamber of Crafts, helped to equip training facilities in crafts at the Professional school of Public cooking and catering service; to restore the ethno museum "Danchova house" - one of the most beautiful houses in the Old town of Plovdiv. In the coming years as a joint project with the help of Rotary clubs of Zerbst and Koblenz, Rotarians replaced the Plovdiv Plumbing installation in Special Kindergarten for deaf children "F. Urbih".
